

6TH ECONOMICS OF
MEDIA BIAS WORKSHOP
8 / 9 March 2023

Call for Papers

6th Economics of Media Bias Workshop

March 8 – 9, 2023, in Munich, Germany

We invite researchers to submit papers or extended abstracts to the 6th Economics of Media Bias Workshop. Organized by the eponymous research network, the workshop will be a platform to discuss current research, exchange ideas, and explore new collaboration scenarios.

As a group of economists and political scientists, we investigate forms, causes, and consequences of bias, especially in news markets and on social media. Main questions of interest are:

- How can media bias be defined and measured?
- In which situations is bias driven by the supply side of the news market? When is it caused by the demand side?
- What are the economic, political, and social consequences of media bias?

Keynote speeches will be delivered by **Julia Cagé (Sciences Po)** and **Theresa Kuchler (NYU Stern)**. The workshop will be held on site at the ifo Institute for Economic Research in Munich, contingent on the development of the coronavirus pandemic.

Submission:

Both theoretical and empirical work is welcome. Those interested in presenting their work at this workshop are invited to email a research paper or extended abstract by **December 1, 2022** at <https://ifo-cesifo-events.org/frontend/index.php?sub=137>. Authors of accepted papers will be notified by December 15, 2022. Presenters have to carry their own expenses for transportation and accommodation. There will be no conference fee.

Important dates:

December 1, 2022	Deadline for submitting research papers or abstracts
December 15, 2022	Notification of acceptance
March 8 – 9, 2023	6 th Economics of Media Bias Workshop, Munich, Germany

Organizers: Anna Kerkhof, Marcel Garz
